

Family Care Physician – Ref. No. 19035 The Alex Community Health Centre Locum

The Alex: Changing Health. Changing Lives. The Alex Community Health Centre is a not-for-profit organization that is changing how we look at health care in Calgary. Our health, housing and food programs support our most vulnerable neighbours, tackling tough health and social issues head-on. Using a multi-disciplinary team approach, we focus care on assessment, intervention and promotion of all aspects of health. We embrace a model of health care that is accessible, responsive and participatory.

What we do and why we do it:

Family Care physicians at The Alex Community Health Centre provide walk-in and appointment based family practice in a non-judgmental, harm-reduction focused, holistic, and opportunistic manner. Working alongside multidisciplinary team members, physicians are required to understand the social determinants of health as they pertain to this vulnerable and underserved population, and to provide full-scope medical care with a trauma-informed and harm reduction perspective. Reimbursement is via alternative-relationship plan (ARP), with booked appointments typically 30-60 minutes long, with physicians expected to participate in team-based, multidisciplinary care.

What you will do:

- Full scope family practice; most clients are between age 24-55, with occasional exceptions for children of clients
- Special skill sets are encouraged and preferred (i.e. opiate agonist therapy, transgender medicine, procedures, IUD insertions, prenatal care, emergency/urgent care, mental health, sports medicine, etc.)
- Work effectively and collaboratively with nurses, mental health providers, social workers, client resource specialists, pharmacy, etc.
- Facilitate and support allied health team members to work to full-scope of practice
- Flexibility in regards to patient scheduling for same-day, walk-in appointments
- Respond to acute concerns as appropriate for a family physician in an outpatient setting (i.e. irregular behavior, drug overdoses, active suicidality)
- As appropriate, support Alex-based research and evaluations initiatives to support organizational theory of change and clinical practice
- Feel comfortable in completing a Form 1, as required
- Be accountable to ARP billing processes, including complete shadow billing for direct and indirect client care via EMR processes
- Attend primary care provider meetings once every three months in the evening

What you will bring:

- Good standing with the College of Physicians and Surgeons of Alberta
- Prior experience working with vulnerable populations (e.g. homeless serving sector, refugee health, remote outreach medicine, or similar) an asset
- Compassion for clients with challenging socioeconomic and life situations
- Ability to multi-task in a fast-paced environment
- Ability to manage medical IT systems – EMR, Netcare, medical references
- Candidate must be willing to have a Vulnerable Sector Police Information Check completed
- Valid First Aid and CPR are mandatory

How to apply:

If you are as passionate as we are about making a difference in people's lives, please email your resume to jobs@thealex.ca and be sure to include the job title and reference number in the subject line. This job will remain open until a suitable candidate is found.

For further information about The Alex and its programs, we encourage you to visit our website at www.thealex.ca

We thank all applicants for their interest, however, only those selected for an interview will be contacted.
